

NEAT STUFF !

## Do you really Need Paper Shampoo?

Because travelers are banned from carrying liquids on airlines, the inventors quickly came up with an answer -

Paper Shampoo!

That's right, just wet it and rub it on your head, but do you really want to pay \$12.50 for 60 hairwashings. Not a bad price if you are going to the darkest jungles that do not have a store nearby that sells staples.

OK, it is nifty though, and weighs a lot less than a bottle of the liquid. Let me know if you have tried it!
